

Gate Specifications

To order a standard or custom gate, we will need the following information:

'A' - the width of the gate, the inside dimension

'B' - the length of the gate, the inside dimension

'C' - a minimum of 12.5 inches is required

For a flanged gate, provide following additional information:

'D' - the outside dimension of the flange

'E' - the outside dimension of the flange

'F' - the centres of the bolt holes, and the number of holes on each side

'G' - the diameter of the bolt holes
